Ambrosia

Description

Ambrosia Apples are best described as refreshing, with floral notes and crisp flesh. They are very sweet with very little acidity. They naturally do not brown after slicing, making them great for snacks.

Harvest Date

September

*Organic Available

Arkansas Black

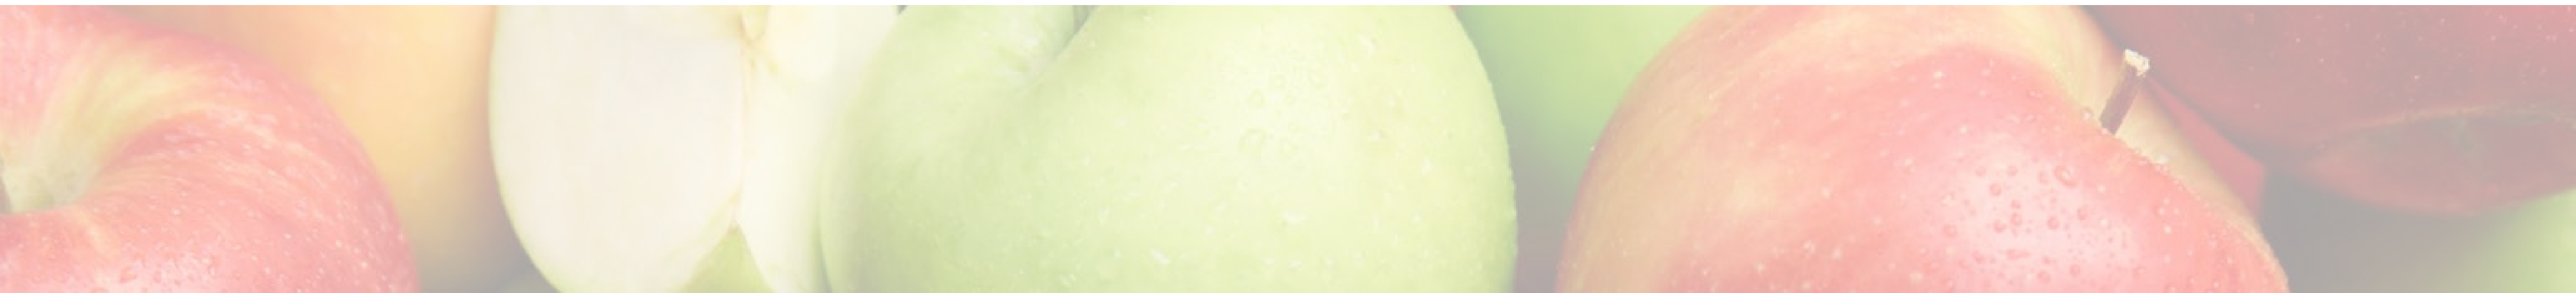

Description

Arkansas Black Apples are a uniquely colored, dark red-purple apple with a sweet, yet pleasantly tart flavor. These apples carry a crispy texture and notes of cinnamon sugar.

Harvest Date

October

*Organic Available

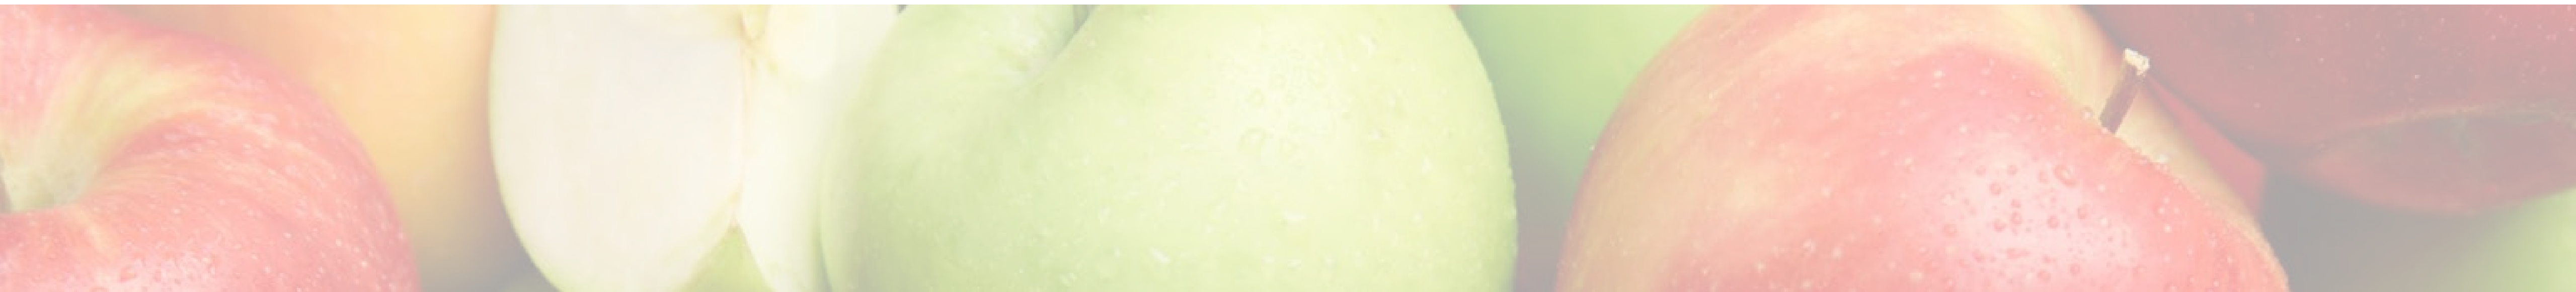

Aurora

Description

Medium to large with cream to yellow colored skin. An Aurora apple is crisp and juicy with a fresh, floral flavor and notes of honey.

Harvest Date

October

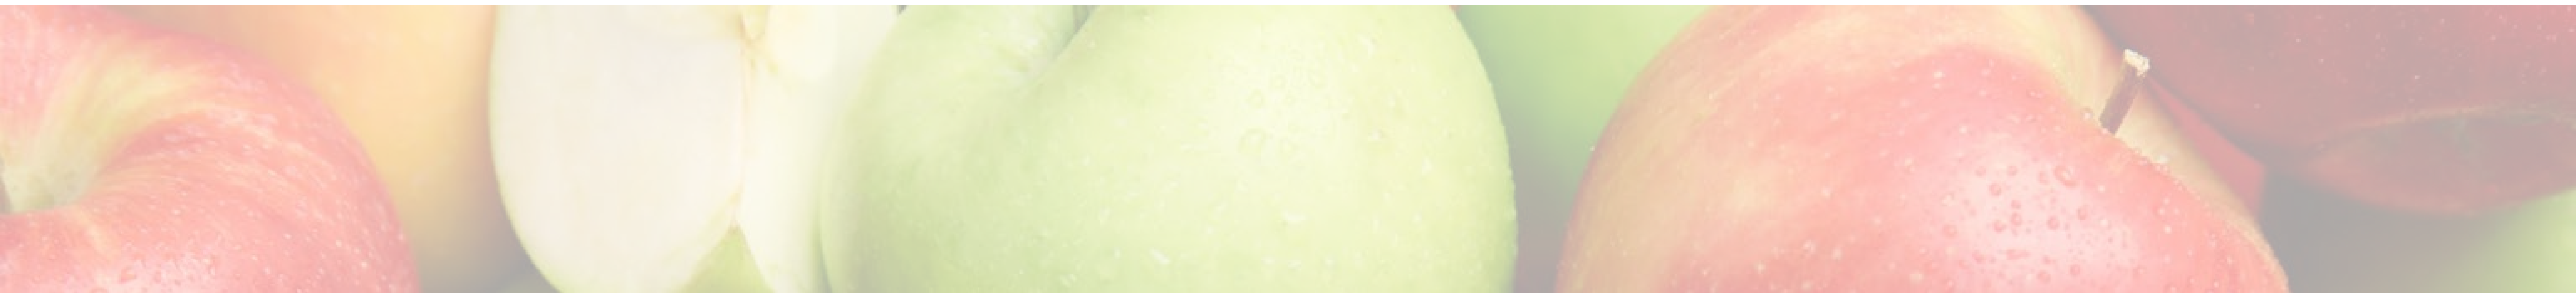

Autumn Glory

Description

Autumn Glory Apples are a relatively new variety packed and marketed exclusively by Domex Superfresh Growers. Their sweet caramel and cinnamon taste allow consumers to experience the flavors of fall all year around.

Harvest Date

October

Braeburn

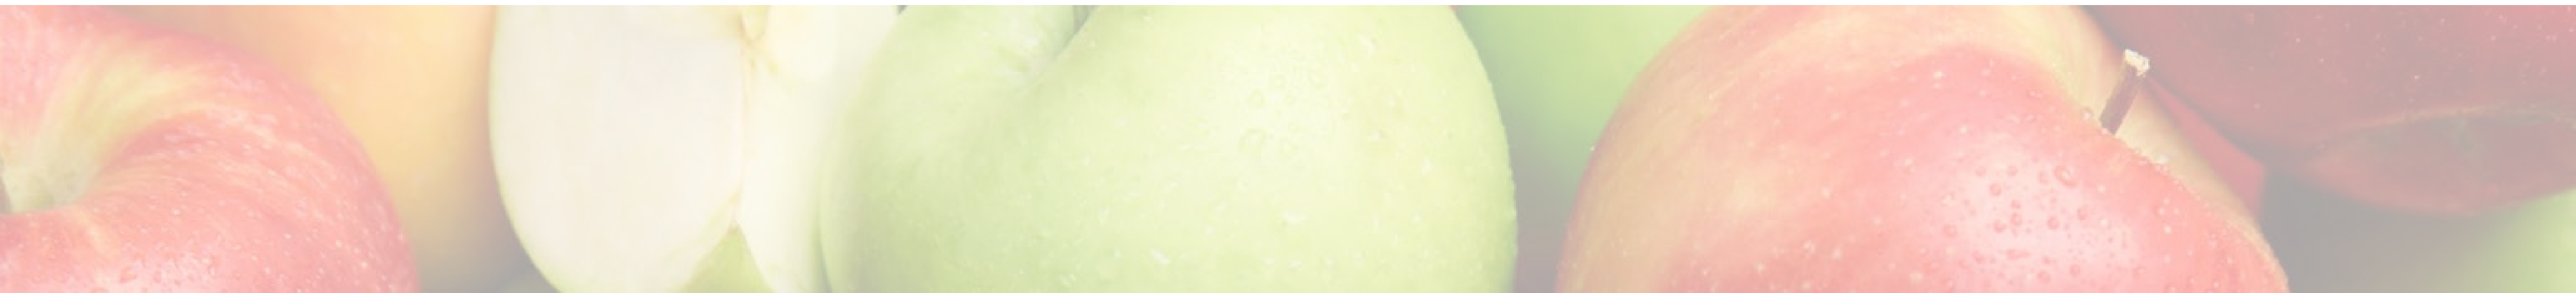

Description

Braeburn Apples are unique due to their obvious notes of nutmeg and cinnamon. They are great for baking tarts and pies because they won't release too much juice under heat.

Harvest Date

September

*Organic Available

Cosmic Crisp

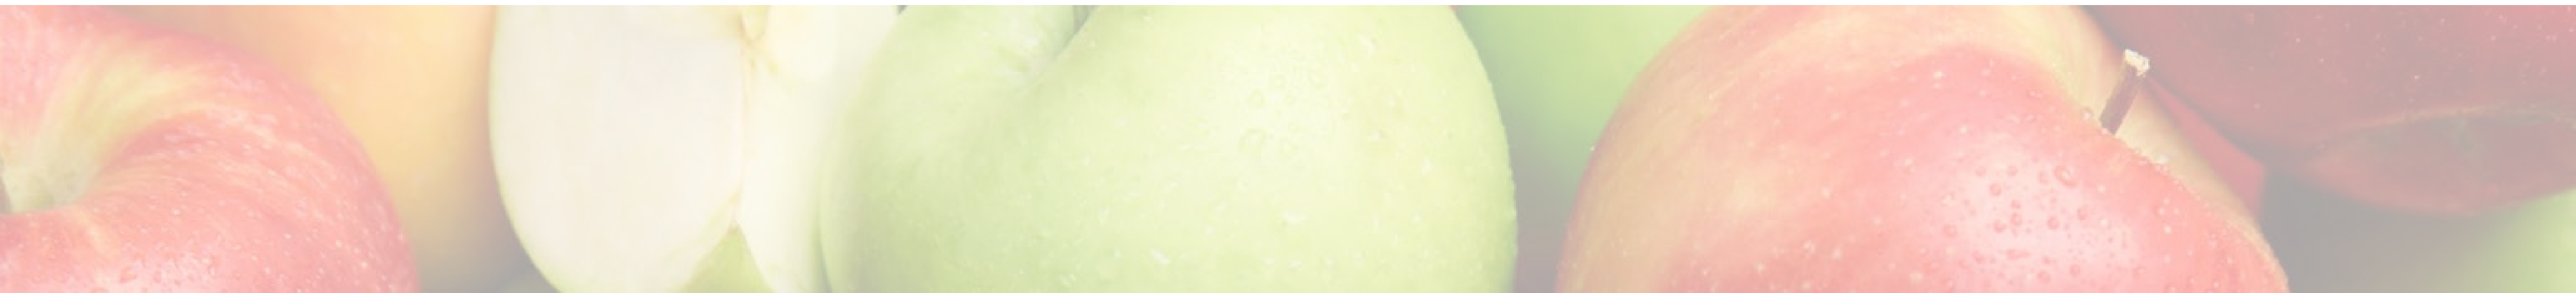

Description

One of the newest apple varieties to hit the market, Cosmic Crisps, is the product of over twenty years of research at Washington State University. This is a large apple variety with a very sweet flavor, perfect for baking, eating, and juicing, and slow to brown.

Harvest Date

November

*Organic Available

Cripps Pink (Pink Lady)

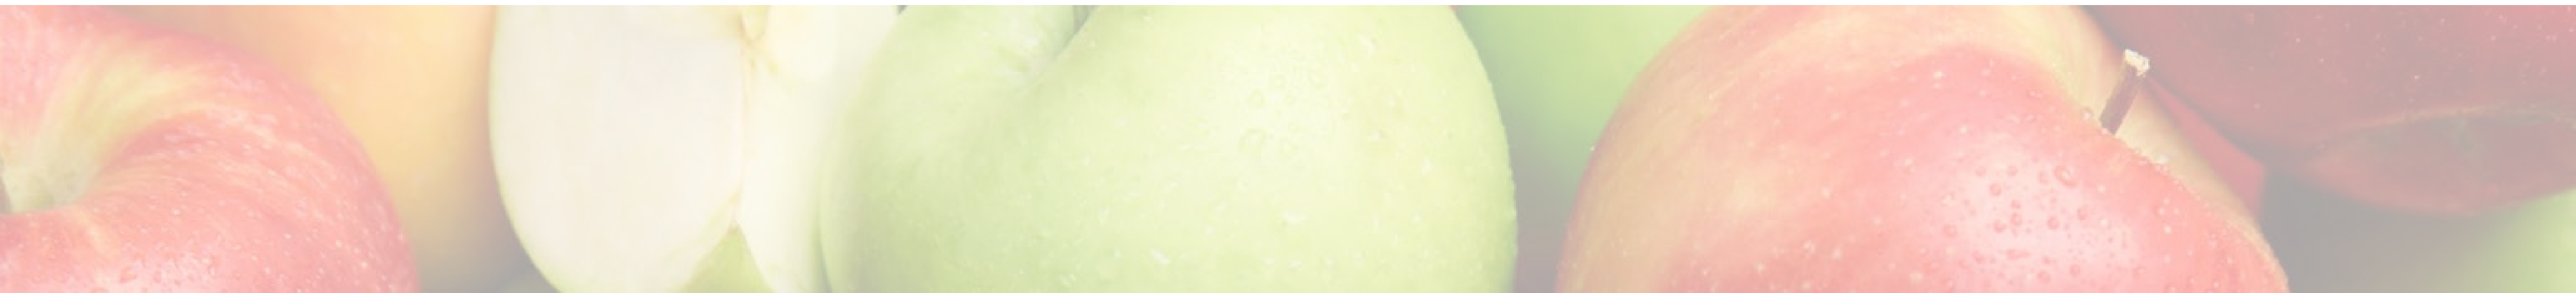

Description

Cripps Pink has a pink blush overlay on greenish-yellow skin. The flesh is firm and crisp, with a tangy, sweet, honey-like flavor. Pink Lady is a trademarked name of the Cripps Pink.

Harvest Date

October

*Organic Available

Envy

Description

Envy Apples have distinctive ruby red skin with green undertones. Their sweet white flesh stays fresh without browning for up to 10 hours.

Harvest Date

December

*Organic Available

Evercrisp

Description

Evercrisp Apples are a cross developed in the early 2000s when searching for the apple with the perfect crunch. Evercrisp apples are sweet and juicy and can maintain their sweet flavor and firm texture throughout storage.

Harvest Date

October

*Organic Available

Fuji

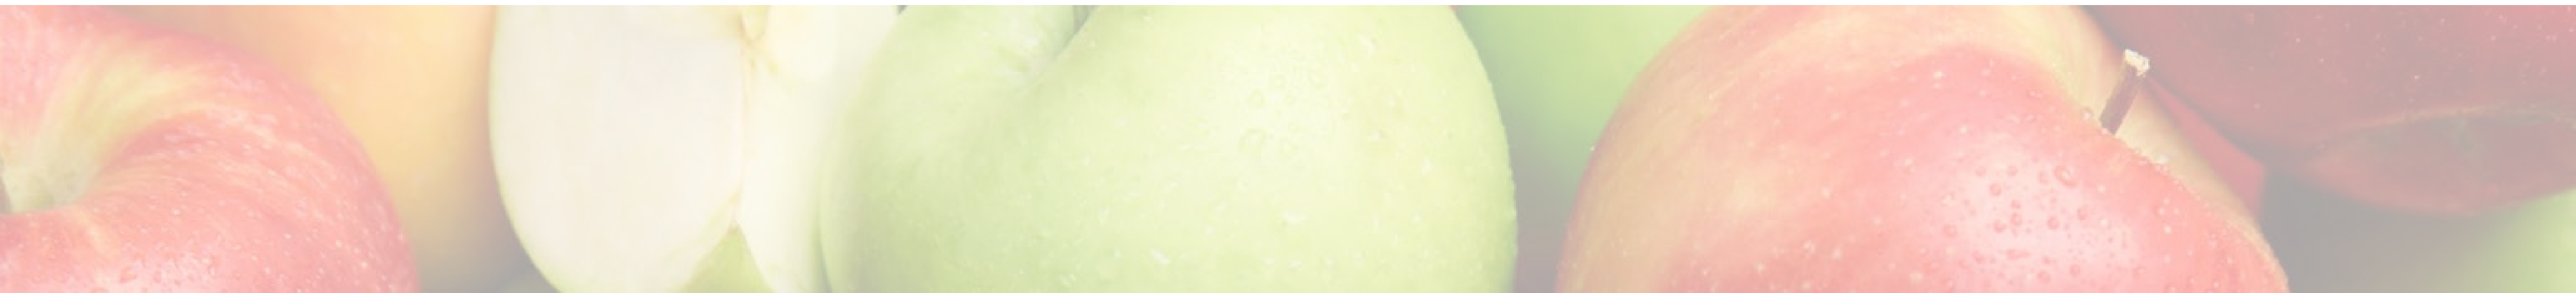

Description

Fuji Apples were created in Japan in the 1930s. This variety has become one of the most popular apple varieties in America. They are distinctively crisp, crunchy and fairly sweet.

Harvest Date

September

*Organic Available

Gala

Description

Gala Apples are usually mottled with stripes and an orange/red color. They are naturally sweet with a fine and aromatic texture.

Harvest Date

August

*Organic Available

Golden Delicious

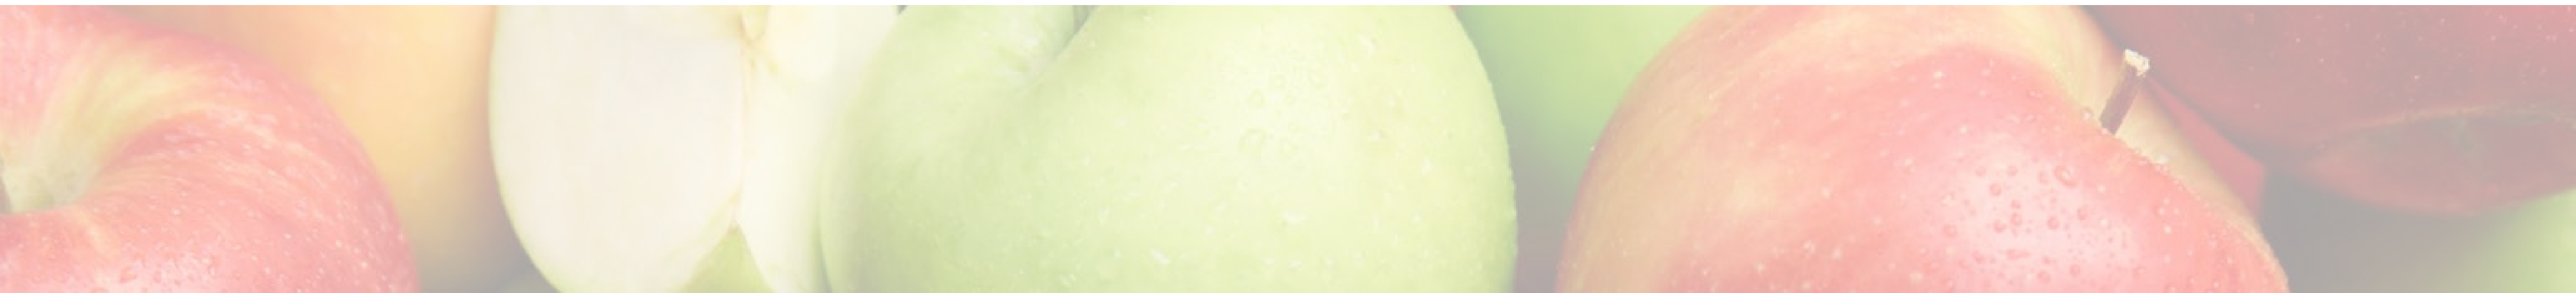

Description

Golden Delicious Apples have beautiful yellow skin and a mellow, sweet flavor. They are not closely related to the Red Delicious Apple, as they have a completely different flavor and texture.

Harvest Date

September

*Organic Available

Granny Smith

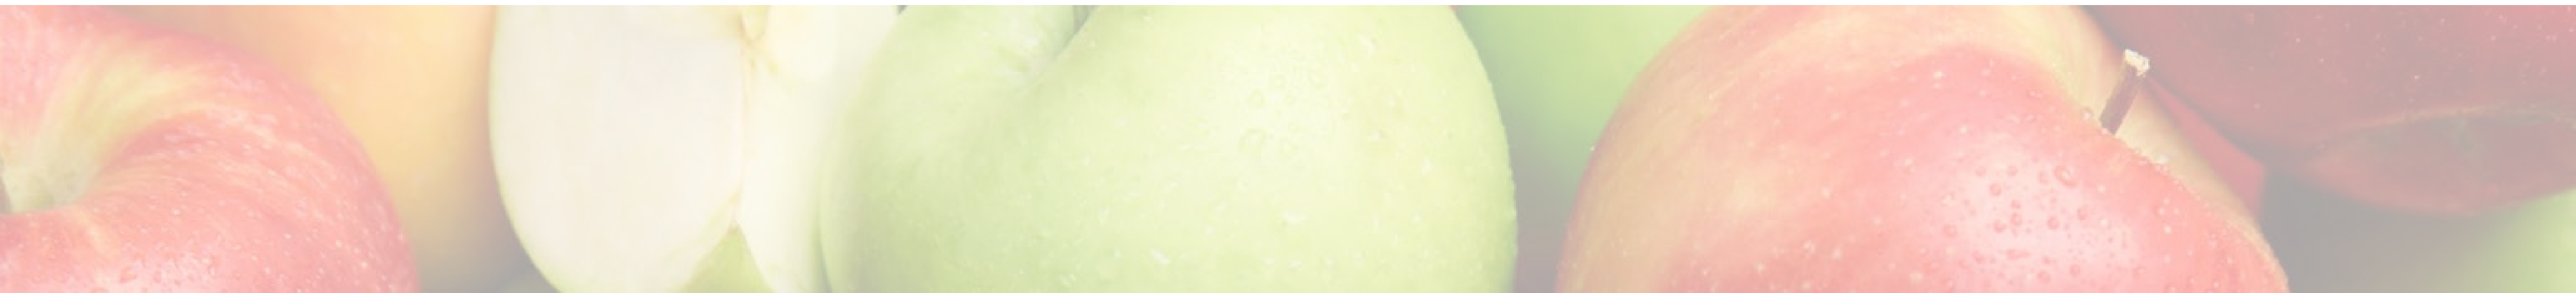

Description

Granny Smith Apples are known for their famous green color and exceptional, mouth-watering tart flavor. These apples are the best for baking your favorite apple recipe.

September

*Organic Available

Honeycrisp

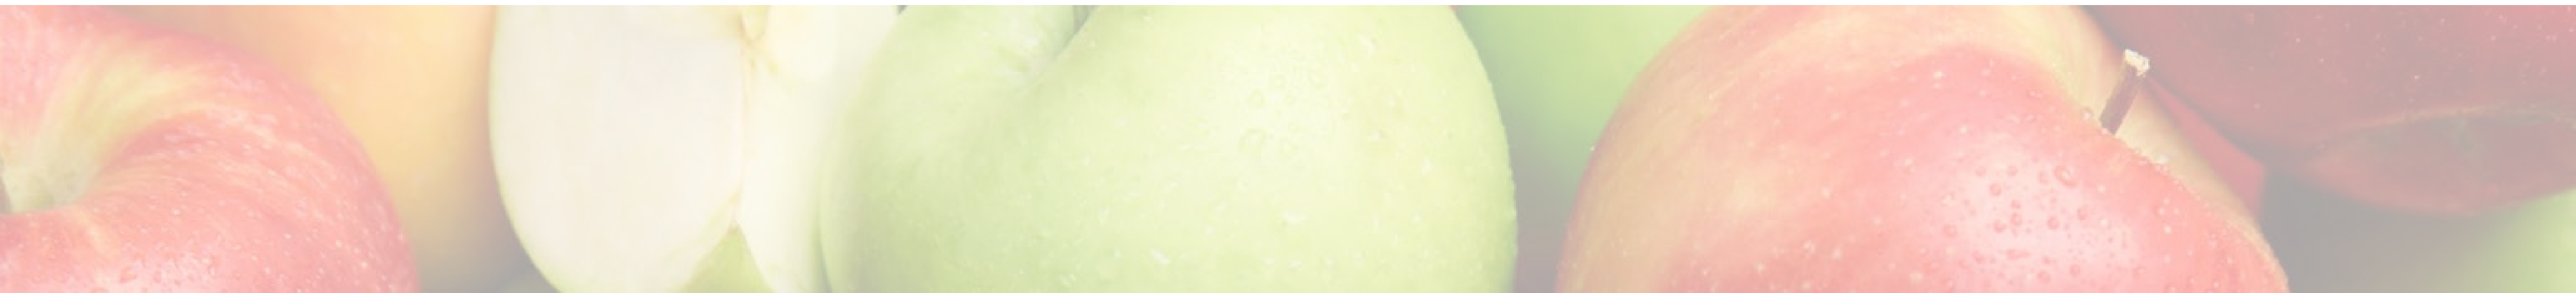

Description

Honeycrisp Apples are among the best apples to eat. When you bite into them, you will experience extreme juiciness and sweetness.

Harvest Date

August

*Organic Available

Hunnyz

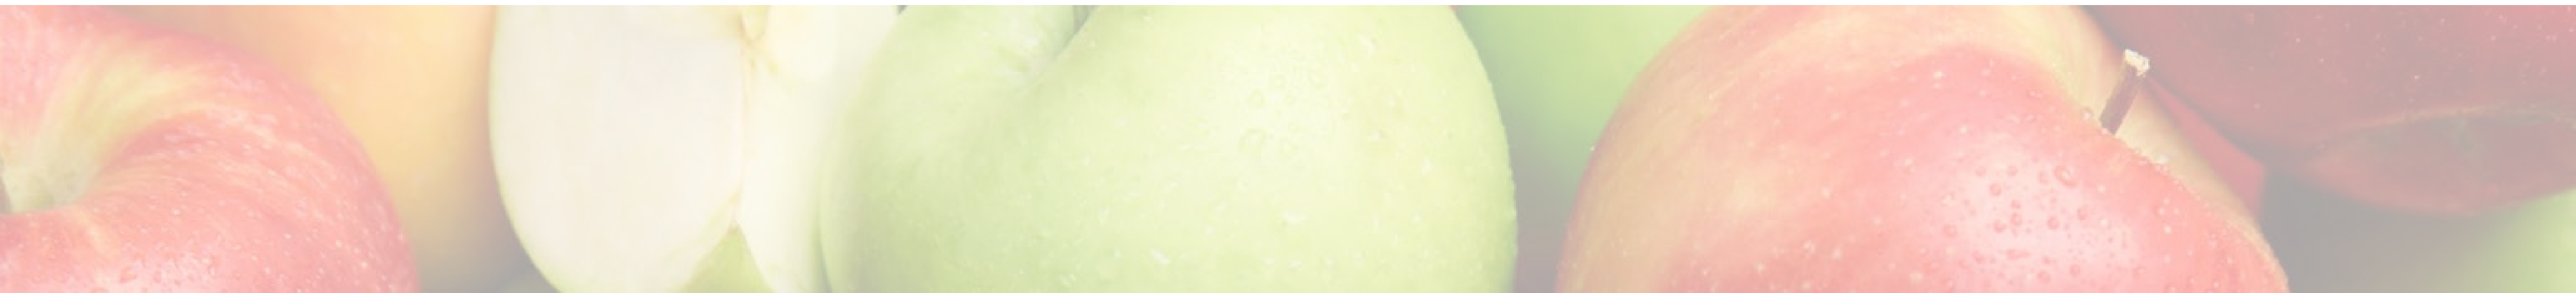

Description

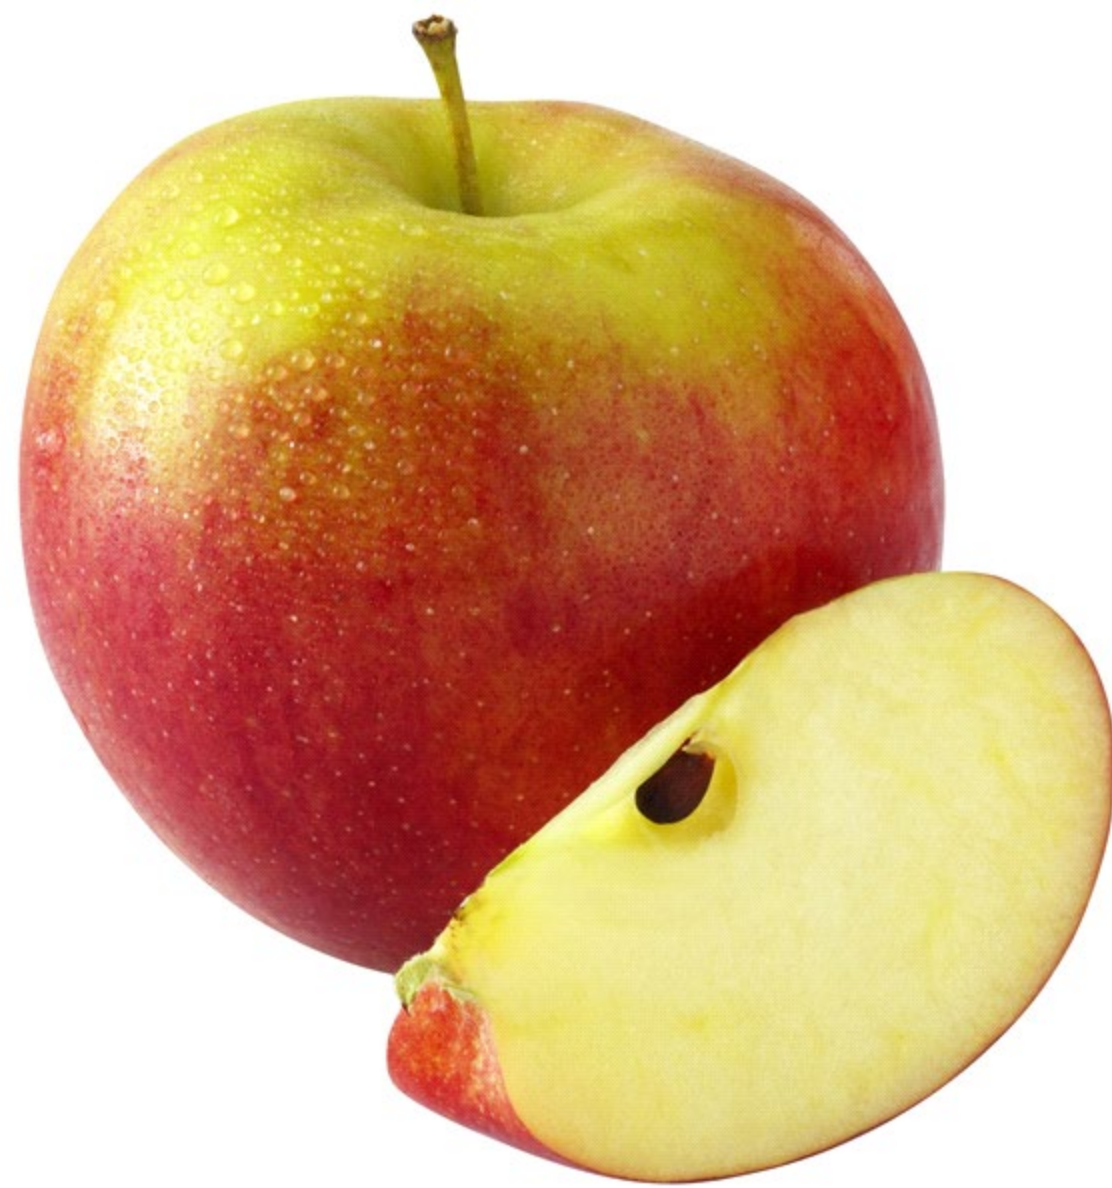

Auvil Fruit initially researched the Hunnyz apple to develop a better-tasting apple. It has a sweet, tart taste with a honey-like tang. Its blush ranges from solid to translucent, with a yellow hue peaking through its bright crimson exterior. The Hunnyz is grown and marketed executively through the Gee Whiz brand of Auvil Fruit.

Harvest Date

August

*Organic Available

Jazz

Description

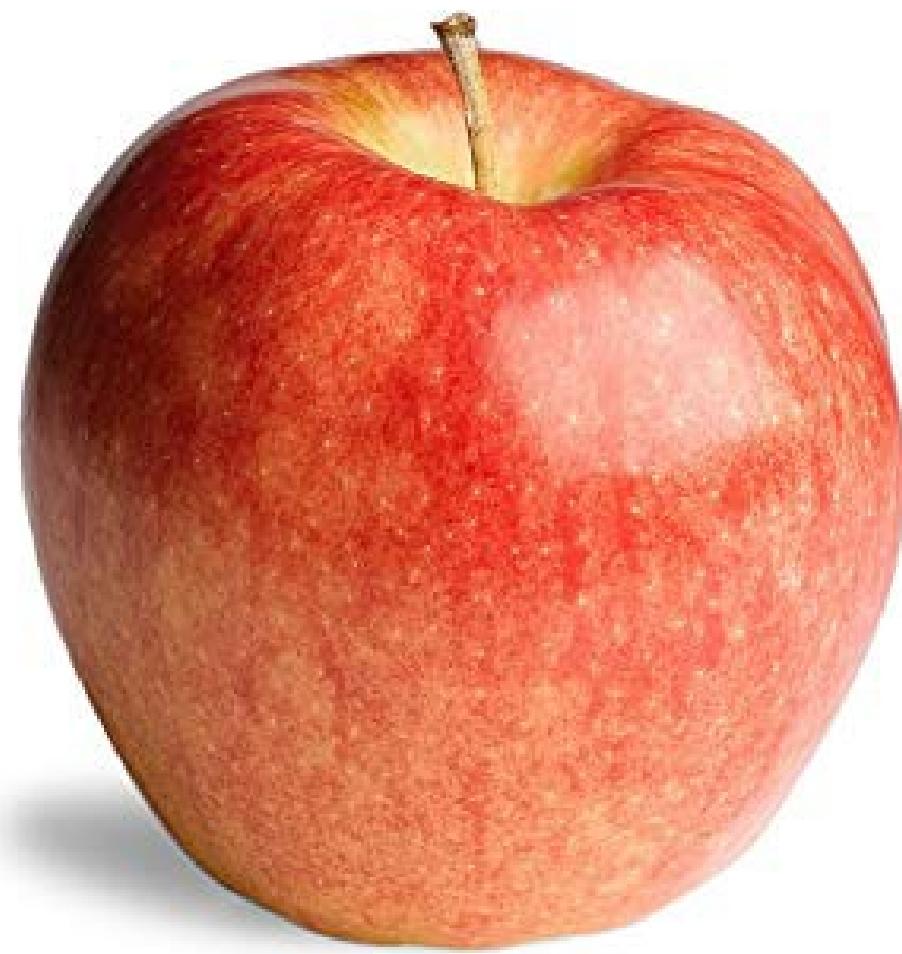

Jazz Apples are crisp, hard apples with a strong, sweet flavor. This flavor is one of the most distinctive of all apple varieties.

Harvest Date

October

*Organic Available

Jonagold

Description

Jonagold Apples are very versatile. They are a large-sized apple with a honey-like flavor & just enough tang in its after-taste. These apples are great for snacking and cooking as they have a very thin skin.

Harvest Date

September

*Organic Available

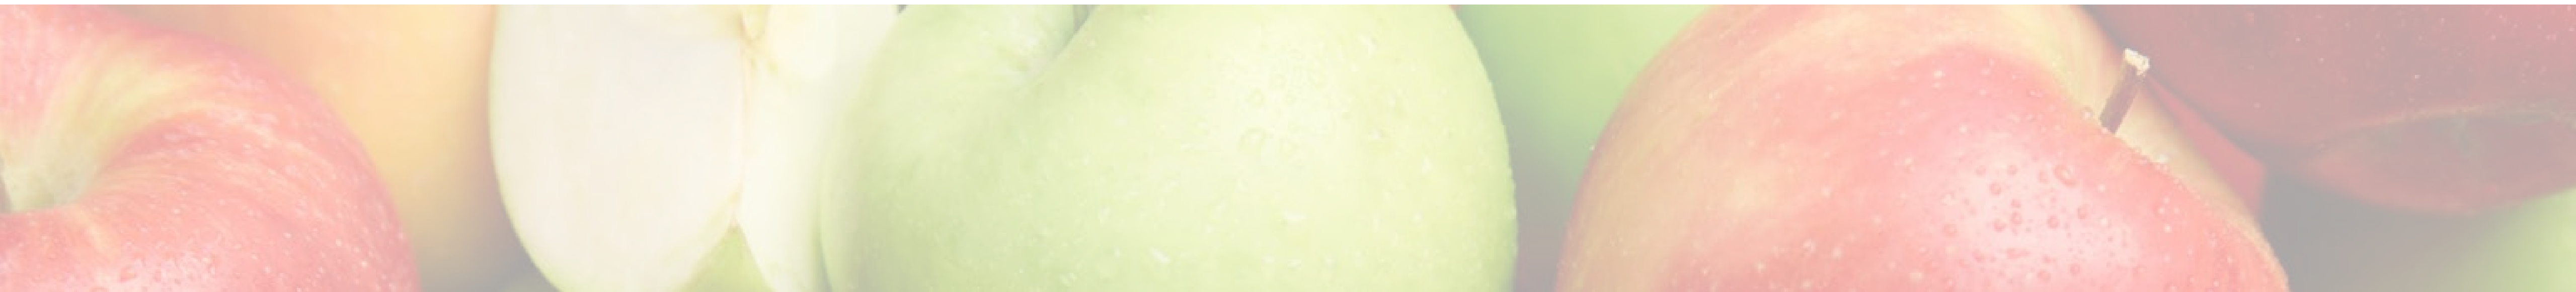

Juici

Description

Staying true to its name, this Honeycrisp cross is very juicy. Juici apples have a balance of sweet and tart flavors, an amazing crunchy texture encased in a thin skin, and an impressively long shelf life.

Harvest Date

September

Kanzi

Description

Kanzi Apples are a blend of Gala and Braeburn apples. They have a well-balanced sweet and sour flavor and a great crisp crunch with every bite, making them tangy as well.

Harvest Date

September

*Organic Available

Kiku

Description

Kiku Apples are known for their sweetness. Today, they are considered one of the sweetest apple varieties available. They are crisp and juicy with firm flesh.

Kissabel Rouge

Description

Red exterior with a deep red flesh, the Kissabel Rouge has a juicy, sweet-tangy flavor with berry notes. It's great for fresh snacking or even as a salad topping.

Harvest Date

October

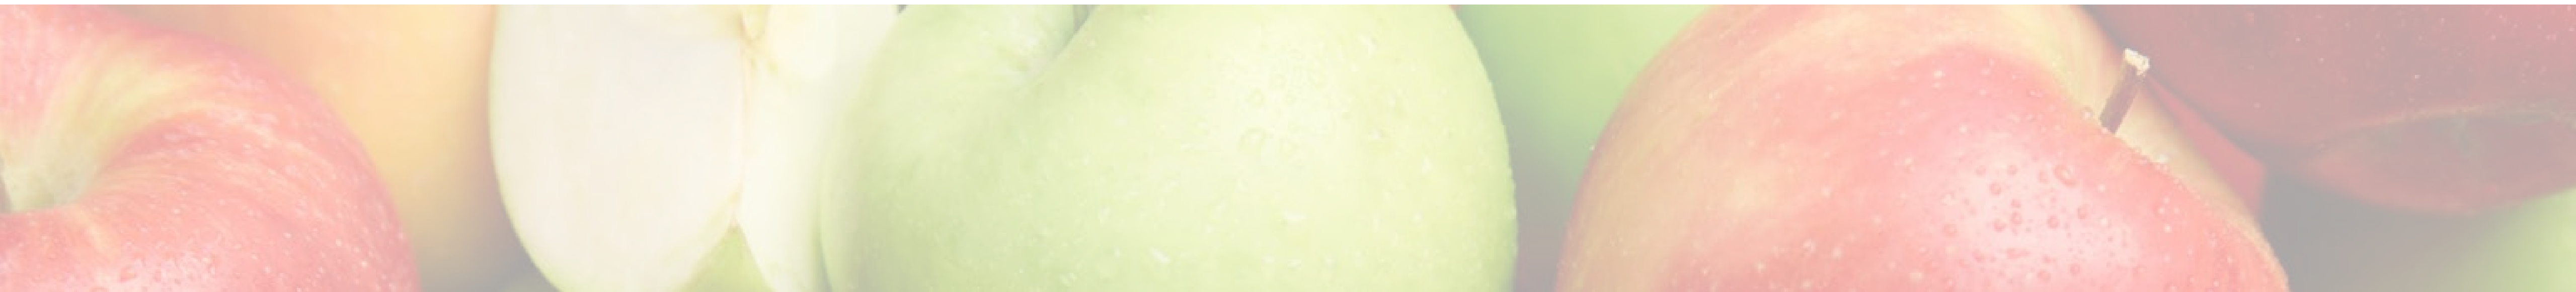

Kissabel Jaune

Description

Boldy yellow exterior with a soft pink flesh, the Kissabel Jaune brings a refreshingly crisp tart taste.

Harvest Date

October

Koru Plumac

Description

Koru Plumac Apples were discovered in New Zealand when an apple was discarded in a rose garden and produced a seedling. Koru Plumacs are crisp, sweet and juicy with complex aromatic honey flavors, slight acidity and slow to brown.

Harvest Date

April

*Organic Available

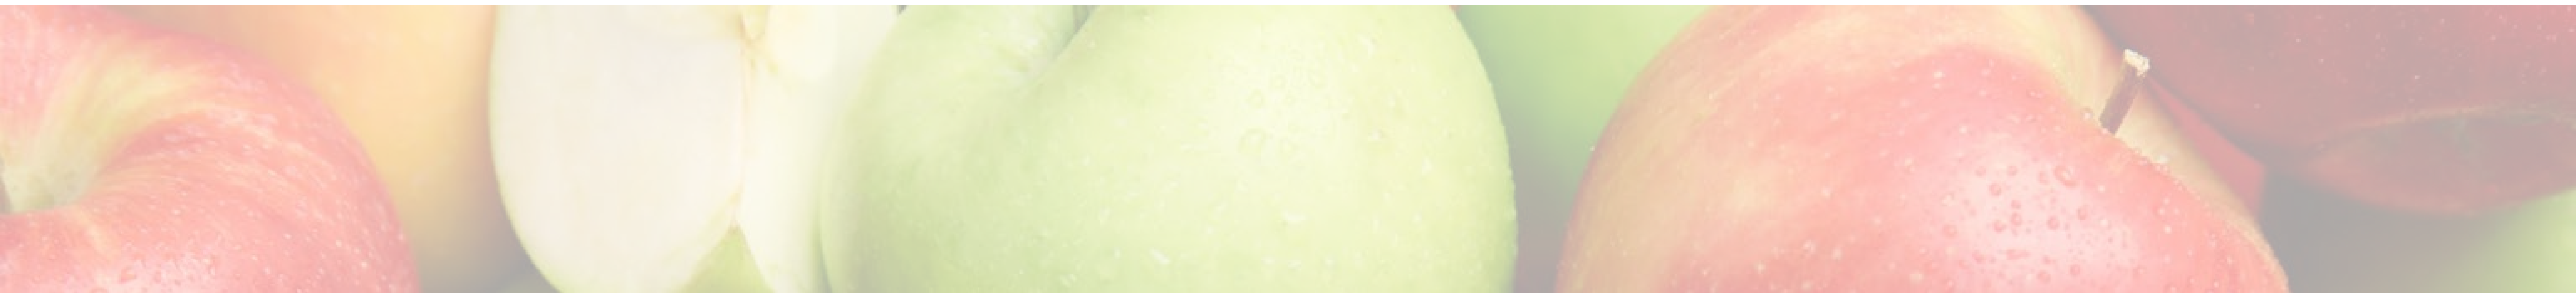

Lady

Description

Lady apples, which range in color from light yellow to deep red, are one of the oldest and smallest US apple varieties. While these apples can be enjoyed eaten out of hand, they are typically cooked to bring out the best sweet-tart flavor.

Harvest Date

October

Lady Alice

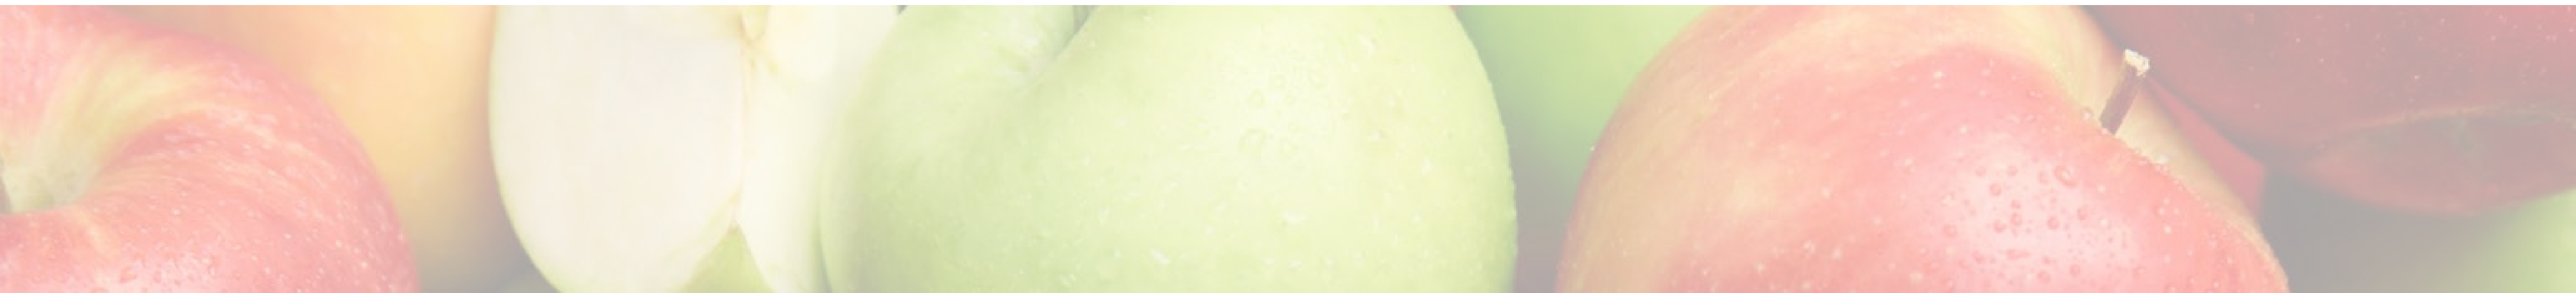

Description

Lady Alice Apples are a relatively new variety in the PNW. They are distinctively round and slightly squatted. The flavor starts out sweet, with a pleasant tart aftertaste.

Harvest Date

September

*Organic Available

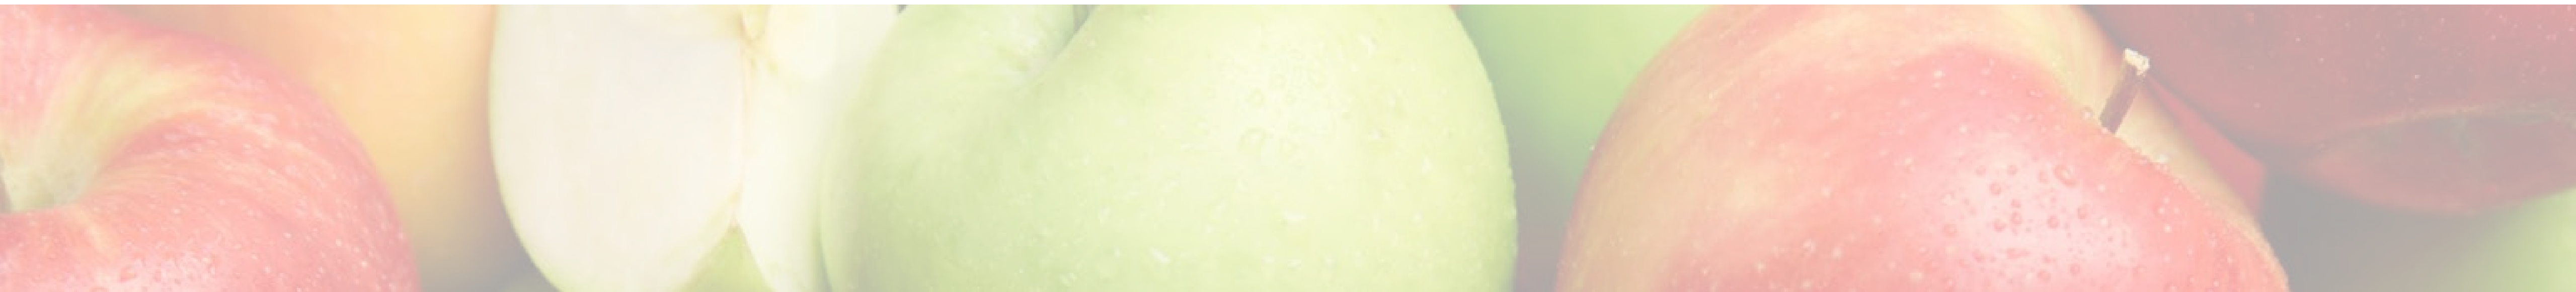

Lemonade

Description

Initially bred in New Zealand as a cross between Gala and Braeburn apples, Lemonade Apples has a refreshing, tangy-sweet flavor like lemonade!

Harvest Date

November

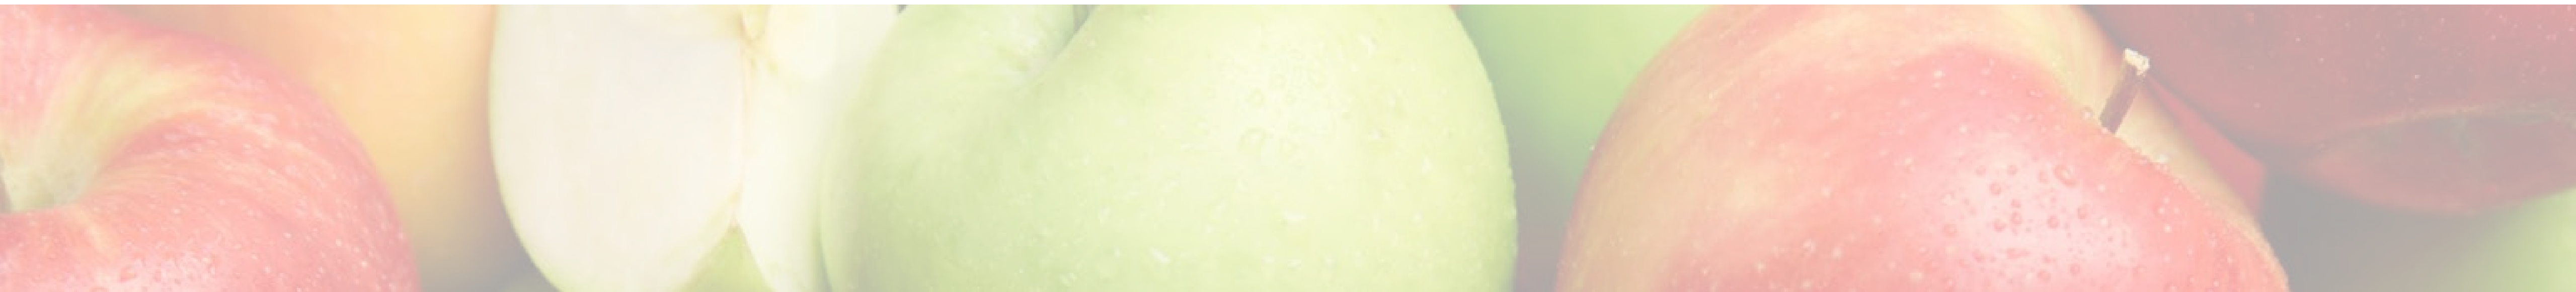

Lucy Glo

Description

Gorgeous yellow skin houses an even more gorgeous rosy-pink interior of a Lucy Glo apple. A Honeycrisp relative, Lucy Glo apples are tangy with a hint of sweet and have a crunchy texture.

Harvest Date

October

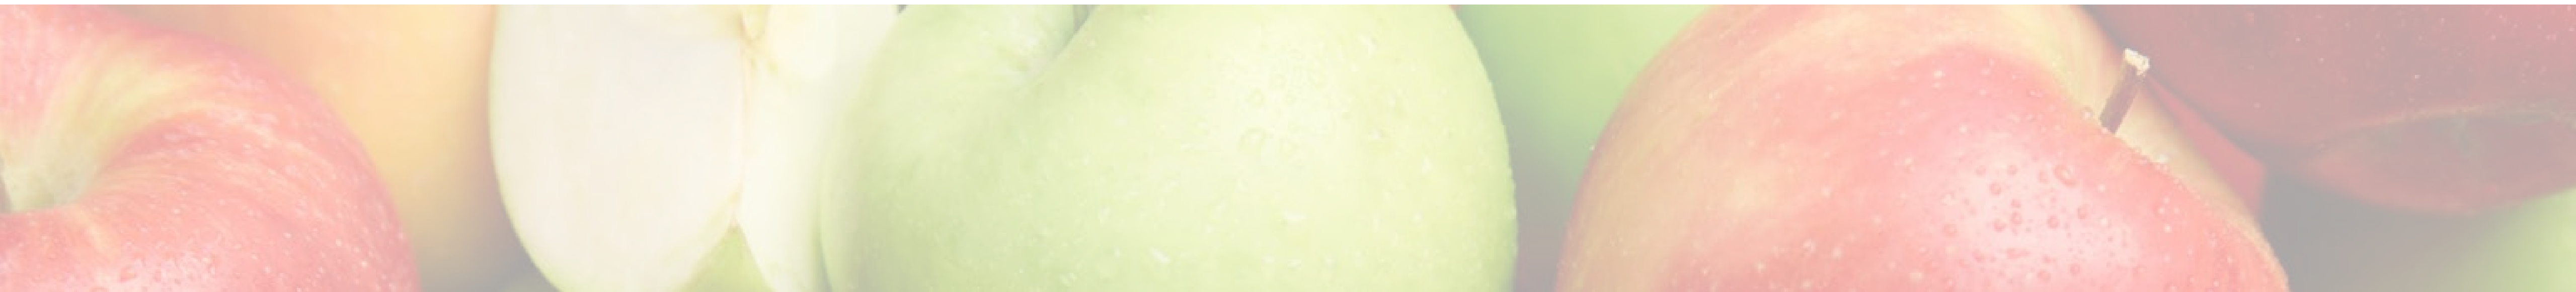

Lucy Rose

Description

Another relative of the Honeycrisp apples are Lucy Rose apples. These eye-catching apples have red skin and matching red flesh. Their flavor has been described as sweet with berry notes.

Harvest Date

September

Macintosh

Description

Macintosh Apples have a spicy aroma with a crisp, juicy flesh. They produce a fresh cider flavor, which makes these apples one of a kind. These apples are great for apple sauce, cider or juice.

Harvest Date

September

*Organic Available

Opal

Description

Opal Apples are like no other. They have a beautifully bright yellow skin with a distinctive crunchy texture, floral aroma, and sweet tangy flavor.

Harvest Date

October

*Organic Available

Piñata

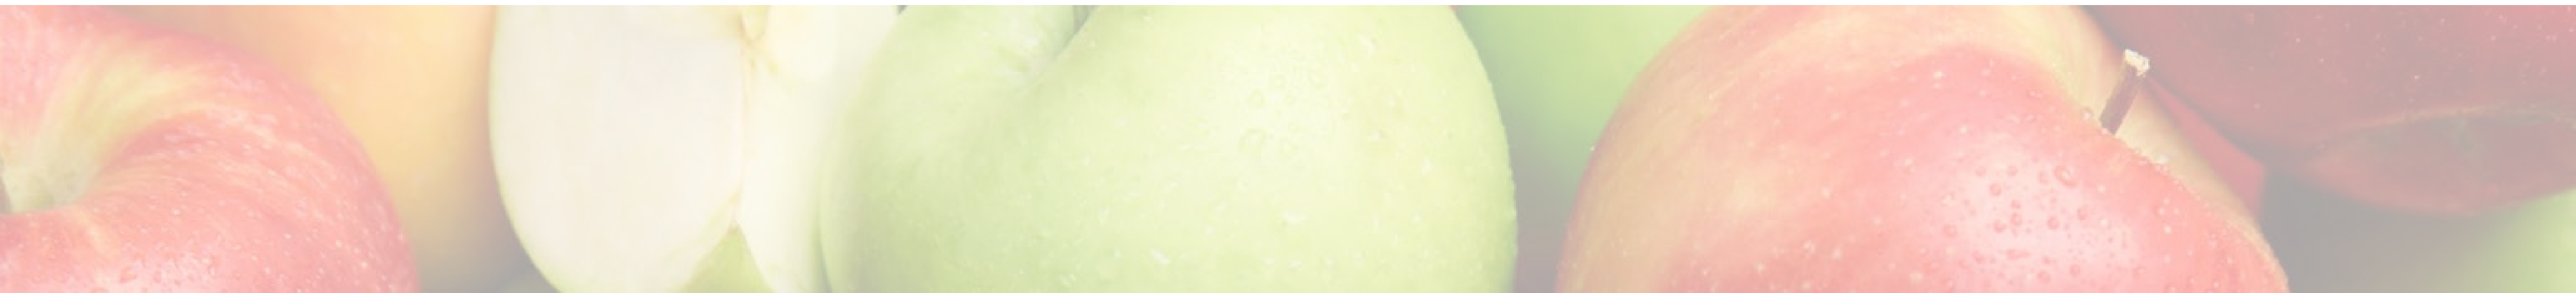

Description

Pinata Apples are a cultivar that will satisfy your craving for tropical apples. They have a crisp, juicy bite while also maintaining an equal balance between a sweet and tart pineapple flavor.
